1. On 4 November, I was called by [REDACTED], assistant to [REDACTED] Chief, Industrial Register, on the subject of [REDACTED] files. In surveying certain phases of IR activity [REDACTED] has become aware of a certain amount of duplication between IR and D/E in the maintenance of such information. He requests that a meeting between IR and D/E representatives be arranged as soon as convenient to discuss this apparent duplication of effort. The point was emphasized that IR does not necessarily desire to "take over" this type of work to the exclusion of D/E but that, to the contrary, IR would be happy to eliminate such coverage if D/E can handle it adequately.

2. In reply, I indicated that although glad to cooperate in such discussions, I would notify those in D/E now responsible for this activity. I referred also to my memorandum of 20 May 1954, "Resume of Efforts to Establish [REDACTED] Procedures in CIA," prepared at request of Chief, E/S.

3. Since [REDACTED] has expressed a desire to work through me on this matter, will you please advise as to when such an IR-D/E meeting would be convenient, if you consider it appropriate. I would appreciate any other comments you may have on this IR proposal.
